

A working life in harmony

BYGGBRANSCHENS
**SÄKERHETS
PARK**

This is the Construction Safety Park

Listen to our Safety Parks podcast about working environment, leadership and how to create harmony in the workplace.

Our Safety Park offers all people working in the construction process training and education in a reality-based environment of 15,000 m². Our training raises insights and knowledge about the risks existing on a construction site entail. By reflecting over our actions during different scenarios on our built-up stations, we create a good insight into our own behavior. Our courses and training are aimed at professional workers, supervisors, site managers, safety representatives, designers, clients, pupils, apprentices, teachers, students, foremen, suppliers and researchers.

Theory and Practice

Areas for discussion and reflection

We tailor our courses and training to your needs. Contact us and we will make sure that you get the correct and relevant training for your employees when you come to us.

Building Construction

Scaffolding, Wall formwork, Receiving goods and material, Fall protection, etc.

Site works

Shafts, Heavy duty barriers, Third party etc.

Work on roads and high height levels

Enclosure and barriers, Noise levels, Handheld machines, Silica dust, Ergonomics, etc.

Certified courses

For our members, we offer certified open training courses for working at high height levels.

Contact us for more information and cost estimation.

At our Safety Park there are different types of risks and health and safety situations simulated in realistic environments. Our Safety Park offers practical learning and education, where our visitors are stimulated by **SEEING, HEARING, DOING** and **REFLECTING**.

We are constantly working and looking for new ways to develop the Safety Park.

We are open for discussions and are willing to cooperate surrounding new scenarios and plans which can help develop our Safety Park.

So don't hesitate to contact us or if you are close by just drop by for a coffee.

A sustainable work life in harmony

We highlight the importance of mental balance and discuss how we can change or consider the various factors that affect us during the working day.

The goal of our training is to create a deeper understanding of the entire construction process - from the early planning stages to actual construction works - and thereby create a workplace in harmony and increased safety.

Course participants must have completed the construction industry's online training:
"Safe Construction Training"

Kick-off meeting at the Safety Park

The Safety Park is an excellent place for start-up meetings. By organizing kick-off meetings at the Safety Park awareness is raised surrounding risks which can be prevented already in the early stages of projects. It also sets up an environment for creating a consensus between different professional groups. Ask us about how your kick-off meeting can be planned and set up in the best way for you.

Membership

A membership has many advantages

For our members, we are a place to turn to for tips and advice to help creating a better working environment. As a member, you are given the opportunity to participate physically at a meeting place created to stimulate development and innovation surrounding work environment, health, and safety in a neutral common place.

Lower price for courses

As a member, you have up to a 50% discount on our company-tailored courses where the focus is on your business and your needs know. Our courses are registered in the ID06 competence database.

Certified courses

Through collaborations, we expand our workplace with certified courses. The Safety Park courses involve practical training to ensure that you get the correct knowledge with the right skills. We offer courses in Fall protection and Rescue. More courses to come. Contact us for registration and cost estimation.

Networking in the Construction Industry

Members are offered opportunities to meet colleagues within the Construction Industry - and other industries - our members come in all sizes and operate all over the country. Make new contacts and create new collaborations at our meetings and events.

Influence the development of the Safety Park

We are constantly working to develop the park with both new scenarios/stations and new collaborations surrounding education. We look forward to an active membership where our members spend some time participating in working groups with different focus areas.

Book conference room

As a member, it is possible to book a room with us for meetings. Many appreciate the proximity to Arlanda. Contact us for a cost estimation. If you want to save time, it is possible to have lunch delivered from nearby restaurants.
